## HOW TO PLAY

To make your ship more powerful, shoot the P-mark whenever you can.

Shooting the P-mark causes a capsule to appear. If you catch the capsule, your power will increase.

If you do not catch the capsule, your ship will move slowly and shoot only one bullet at a time. If you catch one capsule, you will be able to shoot many bullets at one time.

If you catch two capsules, Caesar will be transformed into a more powerful ship, and you will be able to shoot from behind you also.

If you catch three capsules, you will be able to shoot in five different directions at once, and you will also have a shield around you.

This shield will protect you from bombs and bullets, but will not protect you if you crash. If you get hit by one bullet, the shield will protect you, but you will only be able to shoot in three directions at once. If you get hit by five bullets, the shield will disappear.

If you catch a fourth capsule, you will be able to destroy any of your flying enemies.

## ***PROGRESS OF THE GAME***

- 1) **Game start:** Caesar is flying through space and shooting at enemies.
- 2) **Space station:** After a few seconds the space station will appear, along with your ground-based enemies.
- 3) **Trap zone:** You can fly under the space station to avoid your enemies.
- 4) **Power-up:** Catch power capsules to increase your ship's power.
- 5) **Starbrain:** When you destroy Starbrain, you finish this stage. If you cannot destroy Starbrain, or he escapes, you must go through the stage again.

- 7) **Big Starbrain:** He appears at the end of stages 4, 8, 12 and 16. He is your strongest enemy, and is very difficult to destroy. Good luck!
- 8) **Mission accomplished:** When you have destroyed Big Starbrain after stage 16, your mission will be complete.
